HISTORIC NASCAR

BLOW YOUR SOCKS OFF!

Infineon RACEWAY

It's time to get the lead out. The holidays are over and the sounds of cup car motors are dancing in our heads! We have the solution for those post-holiday blues. Let's get back to where it all started – friends who love driving these great cars and sharing the experience. We know it has to be cost effective so how about 7 hours of track time for \$400, which is a 25% discount over the regular price. This is all happening at the most well know road course track in the United States... INFINEON RACEWAY. And if that doesn't to get your ears buzzing, how about UNLIMITED SOUND?

For years we talked about an event to get the cobwebs out at the start of the year. This year it is going to happen, the date is February 22, 2011. The track will be open from 8:15am to 4:00pm. NO run groups. Drive as much as you want and bring what you want. HSCRS will be hosting a barbeque and cocktail party on Tuesday. For those arriving the night before, join us for trackside barbeque and cocktails. Sign up at the track. Order tires in advance from Tom Elam using the enclosed form. Remember... we will use K&N stock car tires, same size but with a harder compound to give more bang for your buck.

This is the way it all started. Good friends. Great cars. Lots of track time. And lots of fun... see you there!

MONDAY, FEBRUARY 21st
